# ACTIVE FIRST AGAIN.

Took Another Hundred Dollars at Saturday's Muster.

Of The Engine Controlling, Active No. One to Reach the 175 Mark.

A large attendance of spectators was present at the annual muster of the Weymouth Fire Engine Association, held at the Agricultural and Industrial Society's grounds in South Weymouth last Saturday afternoon.

All of the veteran fire associations in this vicinity were present and contested for a portion of the \$200 prize money, offered by the management.

A strong southwest wind prevailed throughout the entire afternoon, and the records made were rather small. The active being the only engine to reach the 175 mark.

The intense rivalry that existed between the several teams in this section, since the days when the hand engine was the only means of protection against fire, which the public mind was so much interested in, was again proclaimed on the platform, its prizes were proclaimed by scores of lusty yelled "red jackets."
